

Print Provincial Newborn Record Part 1 and 2 Report

This Discern Report **cannot** be printed via Medical Record Request.

To print from **PowerChart**:

1. Navigate to the patient's encounter in **PowerChart**.
2. Click on the **Newborn Record** tab.
3. Click the **Print** icon.

The screenshot shows the PowerChart interface for patient CSTMATTEST, BABY GIRL A. The patient information bar includes DOB: 07-Nov-2017, MRN: 700007970, Age: 4 months, Gender: Female, and Location: LGH 3W: 311: 01C. The left-hand menu has the 'Newborn Record' option highlighted with a red box. In the top right corner of the patient information bar, the 'Print' icon is also highlighted with a red box. The main content area displays the 'NEWBORN RECORD PART 1 AND 2 REPORT' with the following details:

Mother's Given Name: SUMREC	Newborn's Given Name: BABY GIRL A
Mother's Surname: CSTMATTEST	Surname: CSTMATTEST
Partner's Name: _____	PHN: 9876486891
Address:	
Blood Type:	
Rhesus (Rh) Factor:	
Risk Factors for Infant (Exposure to Substances):	

4. Ensure you select the correct printer before clicking **OK**.

NOTE: Printing through Windows, rather than Medical Record Request, is not tracked in Cerner.

The screenshot shows the Windows 'Print' dialog box. The 'Printer' section has the 'Name' dropdown set to 'Client/W1643631#/Microsoft Print to PDF', which is highlighted with a red box. Other details include Status: Ready, Type: Citrix Universal Printer, and Where: Client\W1643631#\Microsoft Print to PDF. The 'Print range' section has 'All' selected. The 'Copies' section shows 'Number of copies' set to 1. There are 'OK' and 'Cancel' buttons at the bottom.
